

# Business Startup

Ideation, Strategy, GTM, Financial Modeling, Scaling & Governance

## IDEATION & STRATEGY

### 1. Startup Idea Validation & Critique

Act as a seasoned venture capitalist. I am planning to launch [Insert Startup Idea]. Give me a brutal, 360-degree critique of this concept. Identify top 3 market risks, barriers to entry, and actionable mitigation steps.

### 2. Comprehensive Competitor Analysis

Act as a market intelligence expert. My startup operates in [Insert Industry]. Identify my top 3 competitors and build a comparison matrix highlighting gaps we can exploit.

### 3. Unique Value Proposition (UVP) Generation

Act as an expert brand strategist. Generate 5 distinct UVPs focusing on customer pain points and clear differentiation.

### 4. Target Audience & Buyer Persona Design

Act as a consumer behavior analyst. Create 3 hyper-detailed buyer personas including demographics, daily frustrations, purchasing triggers, and social media habits.

### 5. Lean Canvas Business Model

Generate a complete Lean Canvas for my startup idea: [Insert Idea]. Include Problem, Solution, Key Metrics, UVP, Unfair Advantage, Channels, Customer Segments, Cost Structure, and Revenue Streams.

### 6. Revenue Stream Brainstorming

Act as a financial strategist. Brainstorm 7 unconventional but highly profitable revenue streams without significantly increasing overhead.

### 7. Pricing Strategy Development

Act as a pricing psychology expert. Suggest 3 pricing models (subscription, tiered, value-based) with psychological framing.

### 8. Pivot Strategy Generation

Act as a turnaround CEO. Suggest 3 viable pivot strategies to transition existing assets into new high-growth directions.

## MARKETING, SALES & OPERATIONS

### 9. 90-Day Go-To-Market (GTM) Plan

Act as a CMO. Create a week-by-week 90-day GTM roadmap including teaser campaigns, launch activities, and retention tactics.

### 10. B2B Cold Outbound Sequence

Write a 3-step high-converting cold email sequence for B2B decision makers under 100 words per email.

### 11. Objection Handling Playbook

Create an objection-handling matrix for sales teams detailing scripts for overcoming price, timing, and competitor objections.

## **12. Standard Operating Procedures (SOP) Engine**

Create an operational SOP template for onboarding clients, publishing content, and handling refunds with QA checklists.

## **13. Pitch Deck Slide-by-Slide Outline**

Provide a 12-slide pitch deck structure for angel investors with data requirements and core narrative arcs.

## **14. Unit Economics & Burn Rate Optimization**

Build a unit economics model calculating CAC, LTV, LTV:CAC ratios, payback periods, and 6-month runway extensions.
