

Deep Research & Analysis

Market Intelligence, Macroeconomics, Frontier Tech & Scientific Synthesis

MARKET & COMPETITIVE INTELLIGENCE

1. Market Gap & Competitor Spy Research

Analyze direct/indirect rivals, regulatory hurdles, consumer sentiment, and white-space entry strategies.

2. Multi-Source Fact-Checking Protocol

Execute triangulation across academic, governmental, and industry sources with empirical probability scoring.

3. 10-Year Technology Trend Forecaster

Map technological inflection points, material bottlenecks, active research labs, and commercial tipping points.

QUANTITATIVE & FRONTIER SCOPING

4. Venture Capital Due Diligence Audit

Assess technical defensibility, proprietary moats, TAM/SAM/SOM sizing, and fatal execution risks.

5. Complex Root Cause Analysis (RCA)

Construct Ishikawa fishbone diagrams across People, Process, and Tech with deep 5-Whys drill-down.

6. Systematic PRISMA Literature Review

Establish rigorous inclusion criteria, query strings across Scopus/PubMed, and evidence synthesis matrices.
