

# Time Management & Productivity

Deep Work, Pomodoro, GTD, Second Brain & Anti-Burnout Protocols

## DEEP WORK & TIME-BLOCKING

### 1. Cal Newport Deep Work Schedule Architecture

Design 4 hours of uninterrupted daily deep work with morning priming and evening shutdown rituals.

### 2. Day Theming for Multi-Disciplinary Creators

Assign dedicated focus themes to each weekday with strict boundaries against task contamination.

### 3. Ultradian Rhythm & Energy Peak Mapping

Schedule 90-minute focus sprints aligned with natural cortisol peaks and active recovery intervals.

## GTD, SECOND BRAIN & FLOW STATE

### 4. Comprehensive GTD 2-Hour Mind Sweep

Extract every open task loop using 20 cognitive triggers into a unified capture inbox.

### 5. Building a Second Brain (PARA Method)

Organize digital notes across Projects, Areas, Resources, and Archives with progressive summarization.

### 6. Dopamine Baseline Reset & Fasting Protocol

Eliminate digital hyper-stimulation, restore dopamine receptors, and rebuild sustained deep focus.
