

YouTube & Creator Economy

Algorithm Reverse-Engineering, High-CTR Thumbnails, Retention & Business

ALGORITHM & PACKAGING

1. YouTube Algorithm Reverse-Engineering

Optimize the CTR vs AVD tipping points required to trigger viral browse and suggested video traffic waves.

2. High-CTR Thumbnail & Title Psychology

Design 5 thumbnail concepts and paired titles using curiosity gaps, emotional triggers, and visual contrast.

3. First 30-Second Retention Hook

Apply pattern interrupts, open loops, and visual cues in the opening moments to eliminate viewer drop-off.

PRODUCTION & MONETIZATION

4. Documentary-Style Video Essay Script

Write a 5-act narrative essay structure: Inciting Anomaly, Rabbit Hole, Confrontation, Paradigm Shift, Conclusion.

5. High-Converting In-Video Sponsor Read

Craft a seamless 60-second integration that delivers viewer value while driving sponsor conversions.

6. Automated Faceless Channel Pipeline

Orchestrate research, AI scriptwriting, voice cloning, and B-roll video assembly into a scalable workflow.
